2025

Our last full price list was published in January 2021 since which time the Coronavirus and to a lesser extent Brexit have altered the world we live in. At that time the shop was shut, due to Government Covid 19 regulations but we were able to continue to send out mail orders normally, in spite of the Post Office advising us that normal delivery times could not be guaranteed. Clearly we had no control over the Post Office and we asked customers to show greater patience than normal should their orders take a little longer to arrive. Postal deliveries now seem to be back to normal but the delay in your receiving an order become excessive please phone the shop to check the position when I will be able to confirm whether we have received your order, and the date of dispatch.

Our web site at navwar.co.uk shows the up to date position regarding both availability and price of our 1/1200 and 1/3000 ship models, but the listing of Osprey books is out of date, and the ship listing in the Victory at Sea pages is out of date, with regard to price. I regret that at the present time I am unable to update these pages. Please check our latest catalogue, September 2021 for the up to date position regarding Osprey stock, which due to the vastly discounted prices are limited in number and availability.

The Shop is once more open again on Saturdays.

As always one heartfelt plea – **Please remember to add your address to all orders.**

2025 navwar 1:1200th scale SHIPS

1:1200th ships are fine white metal castings and can easily be painted using ordinary enamel paints

WOODEN WALLS

Our range of 1/1200th scale sailing ships includes Chinese Junks, as well as ships of the Elizabethan era, American War of Independence, Seven Years War, War of the Spanish Succession, all three of the Dutch Wars, and the Napoleonic Period. It should be remembered that precise details of ships become more difficult to obtain the earlier we go back. Few 18th Century vessels, nominally in the same class, were built to exactly the same plans, and with refits and rebuilds, vessels which started out as near sisters, could often end their lives looking very different. This is even more true for the Tudor era where scholars continue to argue about details of individual ships. Paintings of ships of the period are often described as different vessels by different authors. We continue to choose models that are typical of a particular class or type at a particular date, rather than provide ranges of near identical half sisters. The division of the range into "Napoleonic and American Independence", "Dutch Wars to Seven Years War" and "Armada" is purely arbitrary. Vessels from either side of the "divide" may be used together.
